DEBTORS AND CREDITORS RECONCILIATION 7 FEBRUARY 2013

Lesson Description

In this lesson we will consider the following:

- Journals are used to record credit transactions
- How to prepare a creditors reconciliation statement and debtors reconciliation
- The purpose of credit control
- The purpose of monthly statements to debtors
- Debtors’ age analysis

Key Concepts

(Notes adapted from Grade 12, Accounting for all, Chapter 3)

Creditors’ Transactions and Creditors’ Accounts

When an enterprise buys goods on credit from another enterprise or supplier, the transaction is recorded in the creditor’s journal. Any purchases returned are recorded in the creditor’s allowances journal and payments of outstanding creditors’ accounts are recorded by making an entry in the cash payments journal. Errors that are corrected, interest charged on overdue accounts and transfers between debtors’ and creditors’ accounts are all recorded through entries in the general journal.

The following journals are used:

- CJ – for recording credit purchases
- CAJ – for recording purchases returns
- CPJ – for making cheque payments to creditors
- PCJ – for making cash payments to creditors
- CRJ – for recording R/D cheques
- GJ – for sundry transactions relating to creditors, e.g. interest on overdue accounts

An individual account is kept for each creditor in the enterprise’s creditors ledger. This individual account is a summary of all the transactions between the enterprise and the creditor and shows the (total) amount due to (or outstanding balance of) the creditor. The entries in the journals as books of first entry are posted daily or monthly to the individual account of the creditor.

At month-end, an account is rendered by the creditor. It gives a summary of the transactions concluded with the creditor during the month, and the total amount that the enterprise owes the creditor.
Creditors Reconciliation Statement

When the enterprise receives an account statement from the creditor, the statement must be compared with the entries of the creditor concerned in the creditors ledger. The purpose of this check is to trace any errors and/or omissions. For this purpose a creditors reconciliation statement is prepared.

Stacey Trading (Reg. 655/1986)

Example One

Poodles Pet Shop

Poodles Pet Shop received an account statement (statement 114) dated 28 May 2009 from Ray-Bees Vets. According to an agreement with Ray-Bees Vets, Poodles Pet Shop receives 20% trade discount on all invoices and an additional 5% cash discount if payment is made within 30 days of the account date. Statement 114 shows a debit balance of R27 888. The accounting officer compared the statement with Ray-Bees Vets’ account in the creditors ledger, which showed a credit balance of R10 712, and found the following differences:

- Invoice 189 was correctly recorded in the creditors ledger as R11 200. Statement 114 reflects the invoice amount as R14 000. The trade discount was not taken into account.
- Credit note 73 for R320 was correctly entered into the creditors ledger, but is shown as an invoice on statement 114.
- Ray-Bees Vets’ account in the creditors ledger was added up incorrectly – it is undercast by R7 200.
- Invoice 194 for R6 280 has not yet been recorded in the creditors journal because the goods are in transit.
- Invoice 208 included eight items that were on special and invoiced for the gross price of R160 per item. The trade discount was not taken into account on these items.
**Debtors’ Transactions and Debtors’ Accounts**

When customers or other enterprises buy goods on credit from our enterprise, the transaction is recorded in the debtors journal. Any sales returns are recorded in the debtors allowances journal and payments received from debtors are recorded by making an entry in the cash receipts journal. Errors that are corrected, interest charged on overdue accounts and transfers between debtors’ and creditors’ accounts are recorded through entries in the general journal.

The following journals are used:

- **DJ** – for recording credit sales
- **DAJ** – for recording sales returns
- **CRJ** – for payments received from debtors
- **PCJ** – for cash payments made for debtors
- **CPJ** – for recording R/D cheques
- **GJ** – for sundry transactions relating to debtors, e.g. interest on overdue accounts

An individual account for each debtor is kept in the enterprise’s debtors ledger. This individual account is a summary of all the transactions between the enterprise and the debtor and shows the (total) amount due by (or outstanding balance of) the debtor.

**DEBTORS RECONCILE** is a usually a comparison of the Control account to the Debtors list.

**Debtors Age Analysis Report**

The debtors age analysis report enables the credit division to analyse transactions with debtors according to specific criteria and to determine how payments and collections are being made. This could be a useful tool to manage the business’s outstanding debts and to see which debtors are not performing according to the credit agreement. It allows the business to analyse the outstanding amounts the debtors owe the business in different periods, such as current (or less than 30 days), 30, 60, 90 and more than 90 days.

**Questions**

**Question 1: Debtors Reconciliation**

The following information was extracted from the accounting records of Dunwen Centre. Mrs Murray, the owner prepared the Debtors Control account as well as the Debtors’ List for September 2010. There were however, certain errors and omissions that still need to be taken into account.

**INSTRUCTIONS**

1.1. Reconcile the Debtors Control account with the Debtors’ List. 

1.2. Read the following information and answer the question below.
Draft a letter to Mrs Murray and include the following:

- A proposed debt collection policy;
- Factors that must be taken into account before granting credit;
- Also explain the procedure to be followed before writing off a debtor's account as a bad debt.

INFORMATION

a) Balance as per Debtors Control account – R6 260 (30 September 2010)

b) Balance as per Debtors List – R6 610 (30 September 2010)

c) Errors and omissions not taken into account:
   - The total of the Debtors Journal was under cast by R200.
   - The total of the Debtors Allowance Journal was overcast by R100.
   - An invoice for R945 was issued to debtor P. Gummy but was posted to his account as R495.
   - A receipt issued to debtor W. Pooh for R800 was correctly entered in the Cash Receipts Journal, but was posted to the debtors' ledger as R300.
   - Interest of R45 was charged to the account of T. Tigger. This was omitted from the general journal.
   - The bank returned T. Tigger's cheque for R750, marked R/D. The cheque was received in full settlement of his account of R850. No entry was made of the above transaction.
1.2.
